I understand that my payments will be of equal amounts as determined by Taylor County RECC for the months of July through May of the following year with the first payment being due by the last working day in July.

I further understand that the month of June will be settlement month, and the bill will be calculated through the May reading creating a total balance due or a refund. Any credit balance of \$5.00 or under will be applied to the next month bill and anything over \$5.00 will be refunded back to the consumer. All accounts will be recalculated in June based on the last twelve months usage and will be noted on the bill with the new budget bill amount for the upcoming year. If there is a security light billed to the account this amount will need to be added to the amount quoted on the bill.

I further understand that I will be dropped from the budget payment plane for failing to send the full amount of the Budget Payment by the due date, and if dropped that I will be billed by the normal billing procedures.
